

10th Annual Science Unlimited Expo

02-05 August 2022

WHAT IS SCIENCE UNLIMITED?

Science Unlimited is a successful national mass-participation science education & awareness project, aimed at grade 6/7/8 grassroots learners, that comprises a scheduled program of curriculum-aligned science, maths and technology shows, workshops, exhibitions and demonstrations on an annual basis. It opens a window on the fascinating applications of the sciences so that learners and educators grasp the relevance of science- and technology-related skills and careers that influence our everyday lives.

KWALATA GAME LODGE

Kwalata, situated in the **Dinokeng Big 5 Nature Reserve**, was established in 1994 as a youth camp which focused on environmental education and leadership development. Since then it has become a vibrant Game Lodge hosting International and local guests.

Over 30 years Kwalata has been a committed partner to develop the Hammanskraal community. We have created a platform where our guests and clients participate in constructive CSI (Corporate Social Investment) initiatives.

One focus area is to improve the **education of learners from rural and township schools**.

Kwalata combines **cultural, social and environmental programmes** with real experiences to generate measurable outcomes for Kwalata's variety of community development initiatives.

KWALATA COMMUNITY DEVELOPMENT INITIATIVE

Our Vision

To establish the Kwalata Community Development Initiative as a single point of entry from where outreach and development strategies are implemented by means of networking with Local and International Partners.

We strive to engage, enable and empower the Southern African community to create a sustainable foundation for development and upliftment.

WHY SCIENCE EDUCATION?

“There’s a **direct correlation** between a nation’s wealth and its scientific and technology capacity. We need to make a concerted national effort to promote science and technology as a means of **improving living standards**”

Objectives:

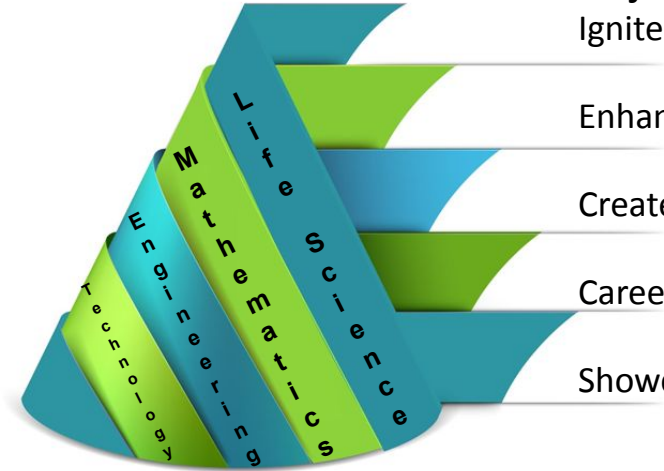

Ignite the Passion

Enhance the Skills

Create Awareness

Career Opportunities

Showcase Innovation

THE EXPO FOCUS ON:

1. Earth Science / Geography
 - Planet Earth : Land, Water, Air
 - Climate Change
 - Soil & Soil Erosion
 - Non-conventional Energy Resources
 - Conservation
2. LIFE Science
 - Biosphere Concept
 - Interactions : Human vs Environment
 - Eco-tourism
 - Biodiversity (The 6th Extinction)
3. Healthy, Responsible and Green Living
 - Renewable Energy
 - Recycling (Reduce & Re-use)
 - Fitness & Sport & Nutrition
 - Permaculture
 - Drug & Alcohol Abuse
 - Communicable diseases TB & HIV/AIDS
 - Lifestyle diseases (Hypertension,
 - Cardiovascular, Diabetes, Cancers)

SCHOOLS ATTENDING

In partnership with GDE 1920 grade 6-9 learners (480 per day) will attend the 2022 Kwalata Science Unlimited Expo. Learners from rural and township schools from Hammanskraal, located west of the Dinokeng Game Reserve, are invited. Corporate partners and exhibitor's fees sponsor:

- Bus transport,
- The three day program
- Lunch and
- Venue cost.

The aim is to enhance education, ignite a passion for science and showcase careers and opportunities offered through science and education.
